

THE UNIVERSITY OF  
MELBOURNE

## Bachelor of Science Advanced (Honours)

**2+2**  
Years Study Model

SR University, the leading private university in Telangana, has established a partnership with The University of Melbourne (UoM), ranked as the top university in Australia and 14th globally according to the QS World University Rankings 2024. This innovative program allows students to complete their first two years of study at SR University before transferring to UoM for the final two years. This arrangement enables students to receive a high-quality international education while initially remaining close to home.

### **The program is unique as:**

- ▶ Students in India will study the UoM curriculum, taught by faculty trained by UoM faculty in a two-year program.
- ▶ They will save on tuition fees as the fee in India for the first two years is approximately one-third of the UoM international tuition fee. Additionally, they'll save on boarding and lodging costs for two years.
- ▶ By studying locally, students can also mature academically and personally, gaining a deeper understanding of applied education before transferring as a group for further success.
- ▶ Students will receive mentorship or co-teaching from international faculty at SR University, ensuring a high-quality education experience.
- ▶ Our infrastructure and technology mirror the University of Melbourne, a testament to our commitment to providing a world-class education.

### **Year 1 and 2 at India**

#### **SR University Campus**

Complete 200 points of compulsory foundation studies co-designed by The University of Melbourne and SR University. This involves the four major disciplines of science (mathematics, physics, chemistry, and biology).

### **Year 3 and 4 at Melbourne**

#### **The University of Melbourne Parkville Campus**

Complete 200 points of compulsory studies, which includes selecting a major offered by the University's Bachelor of Science and completing a minor research thesis in the final year.

**Graduate** with an internationally recognised degree from both the University of Melbourne and SR University. Graduates can then discover pathways to employment, research higher degrees and many professional postgraduate programs.

## Program Highlights

Students are awarded:

**Diploma of Science** upon completing two years at SR University and;

**B.Sc Advanced (Honours)** degree from The University of Melbourne and SR University upon completing four years.

## Benefits

- Quality assured curriculum with defined learning outcomes and assessment standards.
- Strong link to The University of Melbourne and the Australian higher education system.
- A high-quality degree that will satisfy numerous future pathways, including further study in postgraduate science and technology-based fields.
- Students can choose from a diverse range of majors. Fourth-year curriculum includes a semester-long research project.
- Access to the work integrated learning programs and industry engagement programs which are offered to domestic students.
- Students may gain advanced standing to fast track to a master's degree, reducing study time by up to one year.
- Students will be career ready. The University of Melbourne is internationally recognised for graduate employability. Its alumni are distinguished by the critical, creative and interdisciplinary problem-solving skills taught by world-re-nowned teaching staff.
- The degree will be recognised by Australian and international academic institutions for further studies.

## Living in Melbourne

Consistently ranked as one of the world's most liveable cities, Melbourne is safe, fun, and multicultural. The city has international ties to research and industry, including science, agriculture, government, commerce, and the arts.

The University of Melbourne is part of the fabric of Melbourne and Victoria, giving you invaluable opportunities to engage with organizations through internships with business and community groups, applied research projects and overseas study groups.

## International Student Visa

When you are ready to move to Melbourne for Years 3 and 4 of the Bachelor of Science Advanced (Honours) program, you'll be an international student in Australia. You'll likely need a student visa.
