Report on Awareness on Population Control

Details of the Event:

Date of the Event : 07-11-2022
Name of the Event : Awareness on Population Control
Venue : ZPHS School Stambhampally
No. of Participants : 39

Objective:

The Awareness on Population Control event aimed to educate participants about the significance of controlling population growth and its implications for societal and environmental sustainability. The program sought to provide knowledge on family planning methods, highlight the benefits of managing population size, and encourage informed decision-making for a healthier, more balanced community.

Description:

On July 11, 2022, SR University's National Service Scheme (NSS) Unit-1, guided by Mr.K.Ravindar, organized the Awareness on Population Control event at ZPHS School, Stambhampally. The event engaged 39 participants through a series of informative activities. The program included:

The event featured educational talks by experts who discussed the importance of population control and the available methods for family planning. Interactive discussions were held to engage participants in understanding the social and economic benefits of managing population growth. Educational materials such as pamphlets and resource guides on reproductive health and family planning were distributed to support ongoing learning.

Outcome:

- Immediate Results:** Participants acquired a clearer understanding of the significance of population control and family planning methods. The event successfully engaged attendees in meaningful discussions and provided practical knowledge on managing population growth.
- Long-Term Benefits:** The information shared is expected to lead to more informed decisions regarding family planning and contribute to a sustainable approach to population management, positively affecting community planning and resource use.

Impact on Society:

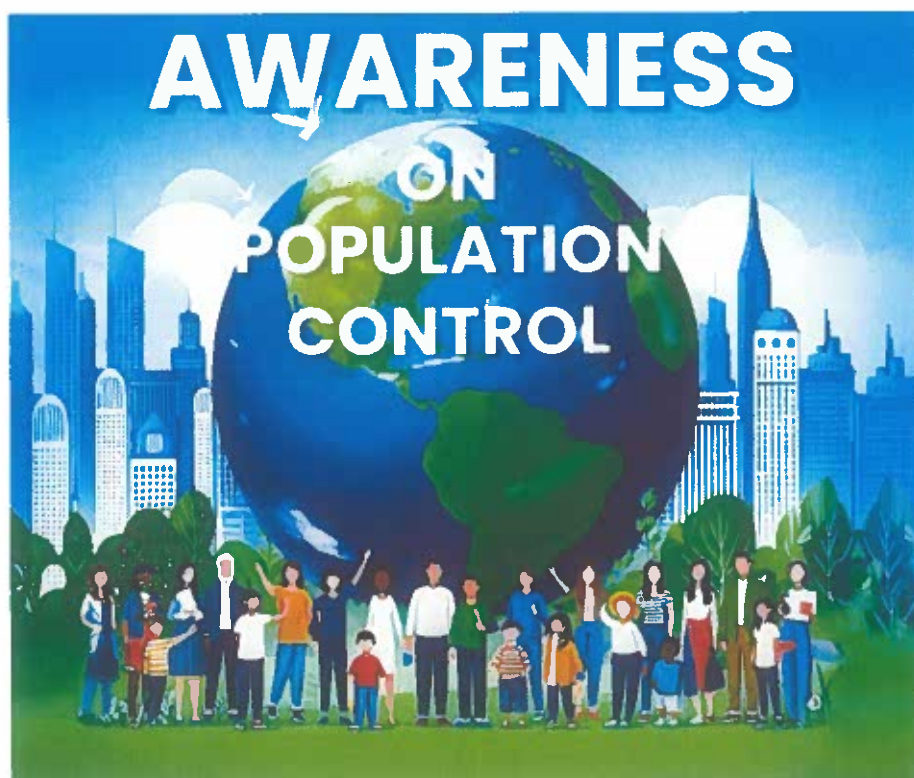

- Community Awareness:** Enhanced awareness about the importance of population control, leading to better-informed decisions regarding family planning in the community.
- Educational Advancement:** Provided participants with valuable knowledge that can be shared within their families and social circles, promoting broader societal understanding of population issues.
- Sustainable Practices:** Encouraged responsible attitudes toward population growth, contributing to the development of more sustainable community practices and resource management.
