Awareness Program to Farmers on Pesticides Usage

Details of the Event:

Date of the Event : 28-01-2023
Name of the Event : Awareness Program to Farmers on Pesticides Usage
Venue : Madipalli Village, Ananthasagar
No. of Participants : 42

Objective:

The "Awareness Program on Pesticides Usage" aimed to educate farmers about the safe and effective use of pesticides. The objective was to improve knowledge on pesticide application techniques, potential health risks, and environmental impacts, and to promote safer practices to enhance both crop yield and farmer well-being.

Description:

On January 28, 2023, the awareness program was held in Madipalli Village, Ananthasagar, with 42 farmers in attendance. The program included interactive sessions on proper pesticide usage, including dosages, application methods, and safety precautions. Mr. K. Ravindar led the workshop, providing expert insights into the effects of pesticides on health and the environment. The event also featured demonstrations to address specific concerns and practical challenges faced by the farmers.

Outcome:

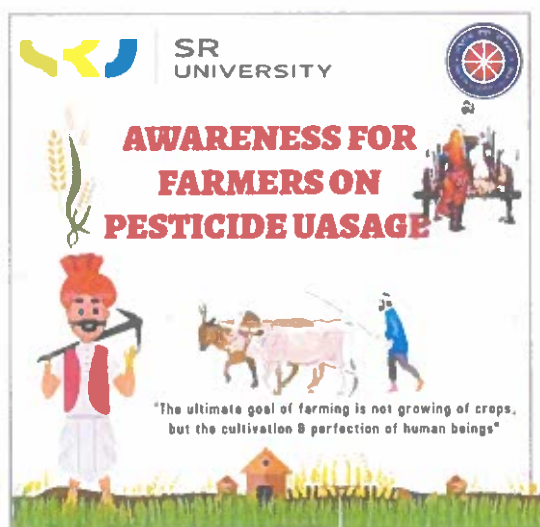

The program successfully equipped participants with valuable knowledge on the safe use of pesticides. Farmers learned about best practices for application, minimizing health risks, and reducing environmental impact. The interactive nature of the workshop allowed for direct feedback and practical advice tailored to the farmers' needs, leading to improved understanding and application of safer pesticide practices.

Impact on Society:

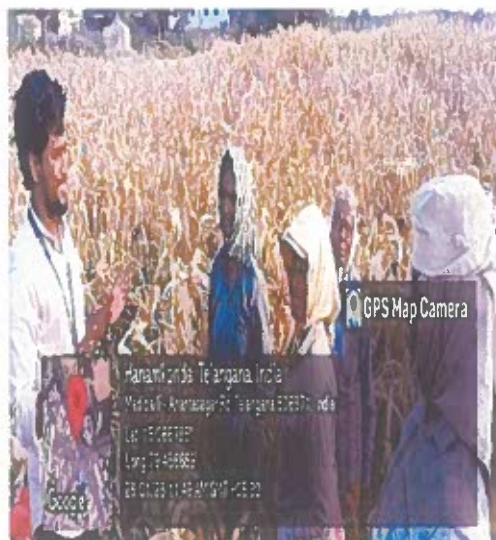

The awareness program had a significant impact on the farming community by promoting safer pesticide use. Improved practices help reduce the health risks associated with pesticide exposure and minimize environmental damage. As a result, the program contributed to healthier farming practices and better crop yields, ultimately benefiting the farmers and their communities by fostering a safer and more sustainable agricultural environment.
